

UNIVERSITÀ DEGLI STUDI DI PARMA

Corso di Laurea in Ingegneria dei Sistemi Informativi

Tesi di Laurea di primo livello

Realizzazione di un assistente vocale per il triage ospedaliero

Triage semi-automatizzato per la sicurezza e la tempestività

Relatore

prof.ssa Mordonini Monica

Correlatori:

prof. Tomaiuolo Michele

prof. Angiani Giulio

Laureando

Simone Montali

Probabilmente 2020

Dedica toccante.

Citatemi dicendo che sono stato citato male.
Groucho Marx

Ringraziamenti

Grazie a Grazia, Graziella e la sorella.

Sommario

Piacere, sommario.

Elenco dei listati

2.1	I directly included a portion of a file	2
2.2	Some code in another language than the default one	2

Capitolo 1

Introduzione

Introduzione alla situazione odierna.

Capitolo 2

Qui

2.1 Quaraquaraqua

This is a reference to a chapter 3. This is a reference to a figure 2.1. This is a reference to some code 2.1. This is a citation [2].

```
1 import pandas as pd
2
3 print "hello_world!"
```

Listato 2.1: I directly included a portion of a file

```
1 public void prepare(AClass foo) {
2     AnotherClass bar = new AnotherClass(foo)
3 }
```

Listato 2.2: Some code in another language than the default one

Hello, here is some text without a meaning. This text should show what a printed text will look like at this place. If you read this text, you will get no information. Really? Is there no information? Is there a difference between this text and some nonsense like “Huardest gefburn”? Kjift – not at all! A blind text like this gives you information about the selected font, how the letters are written and an impression of the look. This text should contain all letters of the alphabet and it should be written in of the original language. There is no need for special content, but the length of words should match the language.

This is the second paragraph. Hello, here is some text without a meaning. This text should show what a printed text will look like at this place. If you read this text, you will get no information. Really? Is there no information? Is there a difference between this text and some nonsense like “Huardest gefburn”? Kjift – not at all! A blind text like this gives you information about the selected font, how the letters are written and an impression of the look. This text should contain all letters of the alphabet and it should be written in of the original language. There is no need for special content, but the length of words should match the language.

And after the second paragraph follows the third paragraph. Hello, here is some text without a meaning. This text should show what a printed text will look like at this place.

If you read this text, you will get no information. Really? Is there no information? Is there a difference between this text and some nonsense like “Huardest gefburn”? Kjift – not at all! A blind text like this gives you information about the selected font, how the letters are written and an impression of the look. This text should contain all letters of the alphabet and it should be written in of the original language. There is no need for special content, but the length of words should match the language.

After this fourth paragraph, we start a new paragraph sequence. Hello, here is some text without a meaning. This text should show what a printed text will look like at this place. If you read this text, you will get no information. Really? Is there no information? Is there a difference between this text and some nonsense like “Huardest gefburn”? Kjift – not at all! A blind text like this gives you information about the selected font, how the letters are written and an impression of the look.
